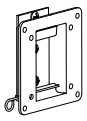
MOUNT SPECIFICATION GUIDE

SMALL FLAT PANEL MOUNTING SOLUTIONS

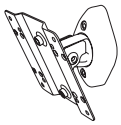
FIXED WALL MOUNT



Model	Color	Ideal TV Size / Hole Pattern	Max Load
FL01	B/S	10"– 30" / VESA® 75 – 100 mm	30 lbs.

- Shallow wall profile—1.14" away from the wall when set to 0°
- Features a 0° and 7° downward angle setting
- VESA® Pattern: 75 x 75mm, 100 x 100mm

TILT WALL MOUNT



Model	Color	Ideal TV Size / Hole Pattern	Max Load
WL01	B/S	10"– 30" / VESA® 75 – 100 mm	40 lbs.

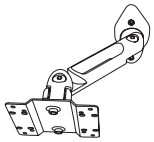
- Allows the monitor to be tilted up and down for precise viewing
- Rotation at the wall plate enables a perfectly level monitor
- VESA® Pattern: 75 x 75mm, 100 x 100mm

PAN WALL MOUNT

Model	Color	Ideal TV Size / Hole Pattern	Max Load
WL02	B/S	10"– 30" / VESA® 75 – 100 mm	40 lbs.

- Allows the monitor to be tilted up and down for precise viewing
- Pan movement for precise side–to–side positioning
- Rotation at the wall plate enables a perfectly level monitor
- VESA® Pattern: 75 x 75mm, 100 x 100mm

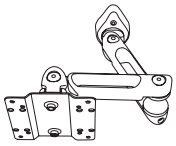
PIVOT MOUNT



Model	Color	Ideal TV Size / Hole Pattern	Max Load
UL01	B/S	10"– 30" / VESA® 75 – 100 mm	40 lbs.

- Utilizes a single arm for increased tilting, panning, and swiveling action
- Advanced 4–axis positioning for optimum monitor flexibility
- Mount to the wall, ceiling, under a cabinet, or on a desktop
- VESA® Pattern: 75 x 75mm, 100 x 100mm

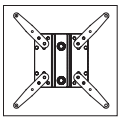
DOUBLE PIVOT MOUNT



Model	Color	Ideal TV Size / Hole Pattern	Max Load
UL02	B/S	10"– 30" / VESA® 75 – 100 mm	30 lbs.

- Utilizes a double articulating arm, extending the range of movement
- Perfect for larger monitors and awkward positioning needs
- Advanced 4–axis positioning for optimum monitor flexibility
- Mount to the wall, ceiling, under a cabinet, or on a desktop
- VESA® Pattern: 75 x 75mm, 100 x 100mm

200mm MOUNT ADAPTERS



Model	Color	Ideal TV Size / Hole Pattern
AD200	B/S	VESA® 100 – 200 mm

- Add to compatible WL01, WL02, UL01 and UL02 mounts to increase your hole pattern to either 100 x 200mm or 200 x 200mm

- Carpet spikes included for stability
- Optional accessories include: spike pads, casters, wire management kits
- Dimensions: 18″D x 24″W x 33″H

THE EVO SYSTEM™

SYSTEM OVERVIEW

The evo system™ is the complete connectivity solution for mounting flat panel televisions, rear projection televisions and all electronic components onto the wall while freeing up valuable floor space. It consists of an aluminum frame and track system that expands to support unlimited equipment configurations.

The frame is hung on independently mounted rails and extends 4" from the wall creating a hollow space for power and wiring distribution. The shallow extension off the wall also solves common sound transmission problems typically found in mounting flat panels directly onto the walls of guestrooms or other rooms close in proximity.

16"x16" removable panels allow easy access to wiring and power connections while creating a true furniture quality appearance. Also available are various evo accessories such as tempered glass shelves, flat panel mounts and speaker mounts to support components and TVs. This modular system revolutionizes the concept of wall mounting electronic equipment.

SEE THE EVO SYSTEM™ SPECIFICATIONS GUIDE FOR DETAILED PRODUCT INFORMATION
